ARCHITECTS or BUILDERS requiring ENRICHMENTS in COMPOSITION, CEMENT, or PLASTER, cannot have better examples than those by W. WILSON, jun., of 18, CROWN-STREET, SOHO-SQ., W., who will be happy to give Estimates for work of any magnitude, at a reduced scale of charges. Architects' designs modelled with precision, and generally faithfully carried out. Established in the early three-fourths of a century.

PARIAN CEMENT for internal use, to be PAINTED IN A FEW HOURS, AND PAPERED WITHIN A COUPLE OF DAYS.—CHARLES FRANCIS and SONS, Patentees, Nine Elms, London.

GREAVES'S PORTLAND, ROMAN, and LIAS CEMENTS—The above possess every constituent necessary, in an eminent degree, and are unequalled for all hydraulic purposes.

GREAVES'S GROUND BLUE LIAS LIME.
FREEMAN and RICHARDSON, Agents
Office, Warwick. 6, South wharf, Paddington.

FRENCH PLASTER mixed with sand forms a hard stucco for internal walls, which dries rapidly, and may be applied in all cases of lime and hair in lathing instead of coat. It is stronger for moulded work than English plaster, and is cheaper in its first cost.—Importers and Manufacturers, J. B. WHITE and SONS, Millbank-street, Westminster; 11, South Wharf-road, Paddington; and Earl-street, Blackfriars.

ATKINSON'S CEMENT, made in London from the Stone supplied from the Mulgrave estate is well known for its quick setting properties and fine natural colour, which have distinguished it for many years as the best Cement for Casting and all ornamental purposes.—Manufacturers, J. B. WHITE and SONS, Millbank-street, Westminster; 11, South Wharf-road, Paddington; and Earl-street, Blackfriars.

KEENE'S and PARIAN CEMENTS, for internal stucco, are employed very advantageously to clear of wood for skirtings, architraves, and panel mouldings, and lay down floors, instead of stone. The peculiar properties of PARIAN Cement allow of its being painted or papered upon within a few hours of its application, and thus render it an important substitute for common plastering in those cases where exposition and beauty of finish are essential.—J. B. WHITE and SONS, Millbank-street, Westminster; 11, South Wharf-road, Paddington; and Earl-street, Blackfriars, Patentees of KEENE'S Cement, Licensees of PARIAN Cement.

J. B. WHITE and SONS advise purchasers of PORTLAND CEMENT to ascertain if an article now selling under that name at a reduced price be the real Portland Cement or a spurious imitation of it in the shape of a Lias Lime.

PORTLAND CEMENT, as manufactured by J. B. WHITE and SONS, possesses all the properties of the best Roman Cement, but has the advantage over that material of wholly resisting frost. When used as a stucco, it does not vegetate or turn green in damp situations, and requires no colouring. Employed as an hydraulic mortar for brickwork, it carries four to five measures of sand to one of cement, and is proved by trial to become harder and stronger in the proportions than Roman Cement with but one measure of sand. This superior cementing power, combined with its eminently hydraulic properties, point it out as the fittest material for building and embankment walls, the lining of reservoirs, cisterns, and baths, and for all those purposes where strength and a perfect resistance to water are required.

Manufacturers—J. B. WHITE and SONS, Millbank-street, Westminster; 11, South Wharf-road, Paddington; and Earl-street, Blackfriars; and 38, Seel-street, Liverpool.

PORTLAND CEMENT, in Casks of Four Imperial Bushels. QUANTITY NOT WEIGHT, BEING THE STANDARD.—CHAS. FRANCIS and SONS, Cement Works, Nine Elms, London.

PORTLAND CEMENT, solely MANUFACTURED by WILLIAM ASPDIN, Son of the Patentee, at Messrs. ROBINS, ASPDIN and Co.'s request reference to No. 896, page 681; and also Nos. 934 and 935, pages 363 and 383, of "The Builder," for accounts of EXPERIMENTS on the strength of Portland Cements, whereby the great superiority of their Cement is manifest. This Cement has been proved for upwards of twenty years in the Thames Tunnel to resist the action of water; it is stronger in the concentrated qualities, harder, and more durable than any other description of Cement; it does not vegetate, sprydate, or turn green; nor is it affected by any atmospheric influences whatever the climate, resisting alike the action of frost and heat. It is manufactured to set in from five to thirty minutes. For all purposes it is recommended to applicable the Proprietors challenge competition.—Orders received by Messrs. ROBINS, ASPDIN and Company, at their Manufactory, Northfleet, Kent, and their Wharf, Great Scotland-yard, Whitehall; also at their Depôt, 68, Hanover-street, Liverpool.

6, South Wharf, Paddington.

PORTLAND CEMENT.—FREEMAN and RICHARDSON have much pleasure in introducing to the trade the above superior CEMENT, being of uniform colour and quality in durderalum never before attained in Portland Cementing. It possesses extraordinary ornamental qualities, resists the action of frost and heat, and is more durable than any other Cement; does not vegetate, turn green, or crack, combined with which its eminent hydraulic properties stamp it at once as the first Cement of the day for work where all the above qualities are requisite. It is manufactured on the only principle Portland Cement can be, and contrary to the statements put forth by those who have hitherto had the monopoly. Manufactured by R. GREAVES, Esq., at his Works, near the River Avon, and sent to all parts of the Kingdom per boat or rail, at a reduced price to the trade.

ROMAN CEMENT and PLASTER of PARIS WORKS.
THOS. FREEN and CO.,
Manufacturers of ROMAN CEMENT, PLASTER of PARIS, and GROUND BLUE LIAS LIME.
TUSCANY WHARF, Regent's Canal, Kingsland-road, LONDON.
DEPOTS—QUEEN'S WHARF, Great Cambridge-street, Hackney-road.
KING'S WHARF, New Wharf-road, Battle-bridge.
No. 8, WHARF, PADDINGTON.
N.B. LATHS, TILES, PAVING BRICKS, PLASTERERS' HAIR, ARTIFICIAL STONE, POTTERY WARE, &c. &c.

ROMAN and other CEMENTS.—Manufactured by J. M. BLASHFIELD, successor to the patentees, PARKER and WYATT, who, in 1796, first introduced PARKER'S ROMAN CEMENT, which has now for upwards of fifty years been extensively used in most of the principal public buildings and other works in this country and throughout the world. Among the more recent works in this country where it has been largely employed since the present proprietor became the manufacturer, may be named the Lyceum and St James's Theatres, the Carlton, Reform, and Army and Navy Club Houses, the London Docks, the Thames Tunnel, the Water Pavilion, St. Petersburgh, the Bristol Museum, the York Minster, the Royal Exchange, the Nelson Column, and the New Houses of Parliament. Two properly applied, it is the most perfect and economical Cement for drysalle work known; and, when used as a stucco, it will resist the action of heat and frost, and preserve walls from damp. As a mortar for brickwork, it approximates very closely to, and is NEARLY AS CHEAP FOR SUCH WORK AS MORTAR MADE OF ORDINARY LIME. Terms, on Hydraulic Lime, for setting masonry where slow indurations is important, so as to allow of the settlement of work. Cement of extraordinary tenacity and hydraulic properties, and with which the most ancient works in Lincolnshire have been erected. Hamelin's Patent Hydra, or Oil Cement, which may be painted immediately after use. Also Martin's Cement, Keene's Cement, Portland Cement, Ground Plaster of Paris, procured from the purest gypsum, and of any degree of fineness required. Chimney Pots, Tiles, Flue Pipes.—Manufactory, Mill-wall, Poplar, Depôts, Commercial-road, Limehouse, and Paddington-basin, Consuling-house, 3, New Broad-street, Mark-lane, City.

PERMANENT STUCCO WASH, WITHOUT SIZE OR OTHER CORRUPTIBLE INGREDIENT.

As used at St. George's Hospital, Hyde Park Corner.

JOHNS and CO. having effected some important improvement in the manufacture of this very useful material, confidently offer it to the notice of the Trade and the Public generally, as possessing every advantage over the common Lime Wash or Water Colour for STUCCO and BRICK WORK. It is a Stone Colour, but may be tinted to any other.—DOES NOT WASH OFF.—Is perfectly dry in twenty-four hours, and, being a non-absorbent, is admirably adapted for Railway stations, Union Workhouses, Barracks, Schools, Prisons, &c. One cwt. will cover 200 square yards. It will keep good for years, and MAY BE EXPORTED WITH PERFECT SAFETY.

JOHNS and CO.'S STUCCO CEMENT.—This cement, from the great reduction in price, and its suitableness for internal as well as external surfaces, places it above all other materials of its kind; it has no caustic qualities; may be painted or papered in a few days; never blisters, cracks, or repairs; soon becomes as hard as stone; and may be cleaned with a brush and water.

The merits of the PAINT are well known for its application to stucco work of all kinds, and external work generally. Numerous testimonials, prospectuses, and every information may be obtained, on application to the Sole Agent, PHILIP HAKE, at the Warehouses, 39, Fleet-yard, Upper Thames-street. A liberal allowance to wholesale dealers.

LIME WORKS, WOULDHAM, near ROCHESTER.

THOS. FREEN and CO. beg to inform builders, contractors, and others, that they have purchased the LIME WORKS at WOULDHAM, on the MEDWAY, of Mr. J. W. LINDRIDGE, and are now prepared to supply GREY CHALK, and PLARE LIME upon reasonable terms, either by the barge direct from their Works, or in small quantities from their Wharfs, viz., TUSCANY WHARF, REGENT'S CANAL, KINGSLAND-ROAD, London; QUEEN'S WHARF, Great Cambridge-street, HACKNEY-ROAD; KING'S WHARF, NEW WHARF ROAD, BATTLE BRIDGE.

GREY-STONE LIME.—HALL, Brothers, Mersham Lime Works, near Reigate, beg to offer to Builders and others a list of their prices for Cash on delivery.

Grey-Stone Lime	6s. 6d. per Yard, or 36 Bushels.	
Ditto, for Manure	6s. 6d.	ditto ditto
Ditto, Ashes	5s. 6d.	ditto ditto
Black ditto	3s. 6d.	ditto ditto

In not less than Six Yard quantities, and put on the Railway for all goods stations on the London and Brighton and South-Eastern Railways, or lines connected with them. A fresh supply hot from the Kilns, daily, at the Bricklayers' Arms and Croydon Stations, and delivered to all parts.

Prices for Cash on delivery:—7s. per yard at the stations or works; 8s. per yard delivered within five miles; in not less than 2-yard quantities. Booking, 1s. per yard; is per yard off, if paid monthly. Collecting charged 5s. The Quality is warranted to be the Best.—Address, Mersham, near Reigate, Croydon; or Tooth's place, Old Kent-road.

CLASS II.—CHEMICAL AND PHARMACEUTICAL PRODUCTS.

DAMP WALLS. — NEW ELASTIC PAINT, an effectual remedy inside or out; will dry in a few hours and may be immediately papered over if desired.

PAINT, MINERAL ZINC PAINTS, invaluable for cheapness, beauty, and permanence. READY FOR USE; will stand any climate, and are well calculated for exportation. White, stone, and lead, 3s. per gallon.

PATENT LIQUID CEMENT, READY FOR USE on the fronts of houses; only one-eighth the cost of oil paint; for beauty and resistant, giving the appearance of fine cut stone. In casks of 1 cwt., 2 cwt., and 3 cwt., at 2s., 1s., and 5d. each. Casks returnable.

G. BELL and Co., Steam Mills, 2, Wellington-street, Goswell-street, London.

THE METALLIC PAINT, produced by the PATENT ALKALI COMPANY, has been extensively used for several years on farm buildings, iron bridges, roofs, and railings, shipping, &c., and it is universally admitted that it covers a greater surface than any other pigment, and stands far better on wood, iron, Abesthaw lime, and Roman cement, than the ordinary paints. Fine black, 28l per ton; rich purple brown, 20l per ton.

Company's Offices, 1, New Broad-street, London.
JOHN A. WEST, Secretary.

PATENT WHITE ZINC, ANTIMONIAL, and other metallic PAINTS, greatly improved in the manufacture, may now be had in any quantity; also whitelead and painters' materials of every description.

Whitening in town and the trade supplied on liberal terms.
VAUGHAN and SYMONDS, Southwark Steam Colour Works, Stones-end, Borough, London.

PURE WHITE ZINC PAINT.—Manufactured from the Vieille Montagne Company's white oxide of zinc; perfectly free from all poisonous qualities, is unaffected by sulphuretted hydrogen, or any of the fumes, and preserves its original colour where white-lead paint will not. Also Grey Zinc Paint, strongly recommended for iron-work.—Sold wholesale by JOHN WARNER and SONS, 8, Crescent, Jewin-street, London.

PURE PATENT WHITE ZINC PAINT, from the Vieille Montagne Zinc Mining Company.—This Company having become Proprietors of all rights and patents of the late Patent White Zinc Company, in France and Belgium, is prepared to furnish, on a large scale, the WHITE OXIDE OF ZINC, in a pure state, and of a quality which can only be manufactured with the zinc from the mines in Belgium. Patent White Zinc Paint is superior, in every respect, to white lead paint. It is entirely free from all poisonous influences, and is unaffected by sea-water, sulphuretted hydrogen, or any gases; besides, it preserves its original colour, which White Lead Paint does not. White Zinc Paint causes none of those ravages, invariable engendered by white lead, upon the human frame; neither painters' cholic nor paralysis. And it is to which dangerous complaints the workmen, who manufacture and use it, are subject, and to which persons who inhabit newly-painted apartments are also liable. A spurious article having been introduced in the market, under the name of White Zinc Paint, the public is cautioned against it, because, when adulterated, it becomes a very inferior paint, instead of a first-class one. For further particulars and prospectuses, apply to Mr. H. F. MCHOLL, General Agent for England and Scotland, at the Company's Offices, 19, Manchester-buildings, Westminster-bridge; and for supply of material and prices, at Messrs. CHAS. DEVAUX and CUM, 61, King William-street, City.

HUBBUCK'S PATENT WHITE ZINC PAINT.—This elegant Paint, the favourite pigment of the portrait painter and the artist, was sometimes introduced by the decorator for the delicate tracery of his most costly works. Two years since the proprietors placed their manufacture on a large scale, and introduced it for general purposes at a price to compete with White Lead. The success of this paint, and its confirmed superiority over every other paint hitherto known, has created a large demand, and brought forward various imitations. These inferior productions are frequently made from ores containing sulphur, iron, lead, arsenic, and other deleterious material, alike injurious to health, deficient in body, and reducing the preservative properties for which the original paint stands pre-eminent. In justice to the proprietors, these should not be confounded with the original paint, even though sold under the pretence that it is all the same. As a guard to the painter against the substitution of the inferior paints, each cask is stamped

"HUBBUCK, LONDON, PATENT;"

and if the cask has not been so marked, the reason is obvious.

A Circular, with full particulars, may be had of THOMAS HUBBUCK and SON, Colour Manufacturers, opposite the London Docks.

TO BUILDERS, PAINTERS, AND OTHERS.

WM. COCKMAN and SONS, 122, Tottenham-court-road, and 33, Aldersgate-street, fine Colour and Varnish makers, beg to call the attention of the above Trades to their superior CARRIAGE VARNISH, at 12s. per gall. containing great body with paleness and brilliancy of colour. Also Best Body Copal, at 8s. per gall. | Ultramarine, ... 1s. 6d. per lb.
Spirit Varnishes, ... 8s. ditto | Emerald Green, ... 1s. 6d. ditto
Paper ditto, White, 10s. 12s. 16s. | Vermillion, from ... 5s. ditto
A sample gallon sent to any part of town, carriage free.

REDUCED PRICES.—EDWARD SIMMS (late Williams Clement), of William-road, Fleet-road, begs to call the attention of the Trade and the Public to his Stock-in-trade at his Steam-factory (the first of its kind ever established), consisting of very large Assortment of Dry and Well-seasoned OAK and DEAL PLANED FLOORING BOARDS and MATCH BOARDING of all sorts, from ¾ inch to 1½ inch thick, planed to a parallel width and tongued and grooved at Simms's Steam Planing Mills, Timber-yards, Oak Planks, Battens, Deals, Office Fittings, &c., delivered by Machinery, Leith, &c.—Apply at E. SIMMS'S Mill, 27, Chenies-st, Flooring Manufactory, William-road, Fleet-road.

PREPARED FLOORING.—ALFRED ROSLING begs to call the attention of Builders and Consumers generally to his STOCK of BOARDS, prepared in the best possible manner, and fit for present use; their superiority to the floor boards generally sold being sufficiently evidenced by the greatly increased demand. A. ROSLING is in a position to offer every description of Baltic and other deals imported into this country at the lowest possible price consistent with fair trading; and begs to submit the orders of those who have not as yet favoured him, feeling assured he can offer them advantages which they will appreciate.—Southwark-bridge Wharf, Bankside.

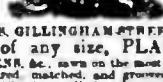
THOMAS ADAMS, MAHOGANY and TIMBER MERCHANT, Surrounder Wood-road, near the Bricklayers' Arms; late "the surrender" Trade from the London-road Station.—T. A. continues to offer those who may favour him with their custom the following advantages, viz.:—A selection from a large SEASONED STOCK of FLOORING and MATCHED BOARDING, always kept under cover (the having very large drying sheds), at the LOWEST PRICE FOR READY CASH, and he makes it his study to execute all orders with the greatest despatch, and agreeably to the requirements of the parties as to quality and lengths; also he begs to state that the boards are measured after they are prepared. Mouldings from a very large stock, at far immediate use, at reduced prices; a drawing of 200 patterns, with prices, forwarded on receipt of two postage stamps. A very extensive stock of Oak Deals of every description kept under cover, at wholesale prices, and the sawing charged at reduced mill prices. Sawing out to order at per load. In fact, all wood goods, either Foreign or English, and in every shape that can be required by builders, cabinet makers, wheelwrights, &c. Every indulgence offered to cash buyers. All goods except whole timber, delivered free within four miles. Great care taken to pack goods sent by railway.

N.B. English timber taken in exchange.

TO PLASTERERS AND BUILDERS.

LATHS, 11. 15s. per LOAD, CASH, at H. ARCUNDELL'S, Webber-street, Blackfriars-road.

TIMBER, DEALS, and MAHOGANY.
Apply to SIMMS and CO.,
Shipowners and Importers,
73, OLD BROAD-STREET, near the Royal Exchange.
N.B.—TIMBER MERCHANTS SUPPLIED IN EVERY PART OF THE COUNTRY.



MEIR'S PATENT PLANING MACHINE.

RAW MILLS, GILLINGHAM-STREET, PIMLICO.

TIMBER of any size, PLANK, DEALS, and BATTENS, &c., sawn on the most approved principle; Boards, &c., prepared, matched, and grooved, by Meir's Patent Machinery. The Mills have all the advantages of navigation and water-carriage, being connected with the Thames by the Grosvenor Canal. Goods fetched from the docks, and carted home free of charge.

Address to HENRY SOUTHAM,
Raw Mills, Gillingham-street, Pimlico.
N.B. Estimates given for Sawing and Planing.

THE GENERAL WOOD-CUTTING COMPANY, TIMBER WHARF,
SAWING, PLANING, AND MOULDING MILLS,
Belvedere-road, Lambeth, near Waterloo-bridge,

are prepared to supply timber and deals, &c., cut and cement to any extent, at the current prices of the day. They keep a large stock of WELL-SEASONED FLOORING and MATCH BOARDS, which, being manufactured by themselves, they offer at the lowest remunerating prices. Their extensive saw mill will be found convenient to the purchasers of their timber, as it can be immediately cut and prepared to suit any purpose.

The Company beg leave to call the attention of the trade to their NEW MOULDING LIST, the largest ever published, and to state that, in addition to their PLANING MACHINES, lately delivered, their machinery enables them to execute every description of mouldings, from drawings, &c., with an accuracy and despatch which must insure satisfaction.

The moulding list, containing nearly 200 diagrams, with prices attached, may be had at the company's mills, or shall be forwarded on receipt of eight postage stamps (the amount of the postage thereon).

The company without previous preparation manufactured and delivered to the Great Exhibition fifty statute miles of mahogany within ten days after receiving Messrs. Fox, Henderson, and Co.'s order, which those gentlemen have certified, and that the work was executed to their entire satisfaction.

TIMBER PRESERVING COMPANY.— LONDON WORKS and SAW MILLS, DURHAM'S WHARF, ROTHERHITHE.—This Company, in connection with their works for the preservation of timber against dry or wet rot, &c., are prepared to undertake SAWING of every description on moderate terms. Their spacious wharf affords every facility for reserving timber or deals from the docks, for contractors, builders, or others, to be converted and delivered as required.—For prices, &c., apply to the Manager at the Works, or to the Secretary, 36, King William-street, London-bridge.

MOULDINGS by Machinery at Reduced Prices.

Large Ogee Architrave, 2½ inches by 1 inch,	6s. 6d.	per 100 feet.
Do. Do. with returned bead, Do.	7s. 6d.	Do.
Small Ogee Architrave, 2½ inches by 1 inch,	5s. 6d.	Do.
Do. Do. with returned bead, Do.	6s. 6d.	Do.
Ogee Door Moulding	5s. 6d.	Do.

A list of seventy-six of the most useful and approved designs, with prices proportionate to the above, will be forwarded on receipt of a penny stamp. Terms, cash.—Apply to THOMAS ARCHBUTT, Saw Mills, Cambridge-street, Old St., Pancras-road.

ON SALE.—Two Six-horse and Two Twelve-horse high-pressure STEAM-ENGINES. These are the best engines for mining or other purposes requiring great strength: in the construction they are portable, the beds being cast in one piece. Also, one FRAME to cut balk or deals up to 16 inches square, and one DEAL FRAME to cut 10 inches deep. Can be seen at JOHN FIELD, jun., and BROTHERS', engineers and mille rights, 13, Back Water-street, Manchester.

FOR WATERING GARDENS, DISTRIBUTING LIQUID MANURE, BREWERS' USE, &c.

PATENT VULCANISED INDIA- RUBBER HOSE-PIPES AND FLEXIBLE GAS-TUBING.

JAMES LYNE HANCOCK sole Licensee and Manufacturer, Gosswell-road, London. These pipes are well adapted for watering gardens, conveying liquid manure, racking beer and cider, for portable gas-lamps, and all purposes where a perfectly sound weatherproof and flexible pipe is required. Hot liquors or acids do not injure them; they are, therefore, much used for chemical purposes, as they require no oil or dressing when out of use; are peculiarly suitable for fire-engines, and are found extremely useful in dwelling-houses for conveying hot or cold water to baths, &c. Testimonials and prices may be had on application to the manufactory. N.B.—Vulcanised India-Rubber Garden-Hose, fitted up with roses, jets, and branches complete, with union joints ready to attach to pumps or water-cisterns. All orders or letters addressed to J. Hancock, Gosswell-street, Gosswell-road, London, will meet with immediate attention. Waterproof fishing boots and shoetings, portable india-rubber baths, shelving and sponging baths, air cushions and beds, made all sizes to order.
